Career objective

Passion driven **Software Engineer** with industry expertise in **Java and JavaScript** including **strong communication and presentation skills**, highly committed to delivering robust applications and **enthusiasm** for knowledge sharing, dedicated to **mentoring and teaching** others.

Educational qualification

BSc. Hons in Computing

Itahari International College (London Metropolitan University) 2022-2024

- Graduated **Upper Second Class (66.6%)**
- **AAA Scholarship** Recipient

EXPERIENCE

Software Engineer (Front-end) (On-site)

March 17 - Present (2025)

Company: Vertex Special Technology

- Developed Enterprise-level applications using Angular Framework.
- Built responsive and reusable UI components with PrimeNG and Tailwind CSS.
- Implemented Modular Programming Architecture for scalable and organized code base.
- Implemented Facade design pattern to simplify and improve product performance.
- Utilized RxJS for effective asynchronous programming and data streams management.

SKILLS

- **Programming Language:** Java, JavaScript and Python
- **Database:** PostgreSQL, Oracle, MySQL and MongoDB
- **Libraries:** React Js, PrimeNg, Material UI
- **Framework:** Angular Framework, Flutter and Spring Boot
- **Application/ Software:** VSCode, Figma, Git and GitHub, Jupyter Notebook and IntelliJ
- **Dev Ops Tools and Platforms:** Docker, AWS EC2, Bitbucket
- **Methodologies:** SCRUM and Jira

PROJECTS

RSP (Rent Sale Property)

- Implemented **Spring Boot (Java Framework)** for creating **REST APIs** backend.
- Implemented **Flutter** for frontend UI designs.
- Developed and integrated advanced security features with **Spring Security** to safeguard applications
- Integrated **PostgreSQL database** into application architecture, enabling efficient data storage, retrieval, and management

Yaintra

- Implemented Newer version of **Angular Framework** for product development.
- Implemented **Facade Design pattern** for simplified code and better product performance.
- Built **responsive UI Designs** with **PrimeNG Components and Tailwind CSS**.
- Used **RxJs components** for better state management.

ACHIEVEMENTS AND AWARDS

AAA (Academic Attitude Attendance) Scholarship

January 2024

Awarded by: Itahari International College

MENTORSHIP

Hack 4 Safe Food (Vertex Foods)

- Guided two passionate teams as mentor focusing on tech stack and product presentation
